Dear valued Stakeholders, Assalamu-Alaikum

OVERVIEW

The 2017 was another good year for Aman Feed Limited (AFL). The Company has delivered record growth in its profitability for consecutive years underpinned by the continued focus on operational efficiencies and delivering better -than -expected business. We continuously strive to maximize the value we bring to our customers, business financial partner and stakeholders. Cost containment and margin improvement remained challenging, especially in light of the continued pressures from competitive environment. In these circumstances, we at AFL have every reason to be pleased with our performance. We had strong growth, increased our earnings and strengthened our financial stability.

Maintaining trust is more important than ever in today's global business environment. Wherever Aman Feed Ltd operates we strive to conduct our business in a manner reflecting our highest ethical standard and environment protection policy. Today the company is recognized as preferred business partner of poultry sector in Bangladesh.

AFL's operating revenue rose 4,053,598,905 from TK 3,654,092,037. Operating profit increased by 4.04 percent to TK 28,180,181 and the net profit strengthened further to TK 49,105,469 registering a growth of 11.42 percent. In 2017, we continued to work harder to differentiate ourselves from our competitors with new strategies that enabled us to outperform the competition and to further expand market shares in the industry. Along with the focus on diversifying our earning streams, we have taken measures to strengthen our service streaming our organizational structures. In line with our new departmental structure, we have engaged qualified management team in each department. They are responsible for implementing AFL's strategy in

their respective operating areas. Much can be done to enhance our current and future competitiveness giving more emphasis on product innovation and focused marketing efforts that will all help us towards achieving our goal. We also have to relentlessly drive for superior products.

OUR APPROACH TO SUSTAINABILITY

Our strategy is to ensure sustainable growth and we expect the trading environment to remain challenging, but our resilient business model has shown that the company is well placed to face future challenges. As such, I am confident that we have the right brand, people and focus on efficiency to enable the continued delivery of value to the shareholders.

GREAT TEAM

I feel good about what we have accomplished and how we are positioned. There are many reasons why our team has worked hard to meet our customers' needs and serve our stakeholders well. We always value the power of talented people, trained by inspired leadership, all driving hard towards achieving our goals.

We have a great team who has been involved in the cutting edge of delivering superior services. Our challenge now is to inspire our people with a vision that we can really become truly a leading feed manufacturing company, the very best to cater the needs of our market. This will help us build a company with sustained growth and gradually make AFL a lure for the most talented people around.

We are committed to offering a workplace where employees can achieve their full potential and feel proud to be part of Aman Feed. Investing in our people, ensuring their skills evolve with the needs of our business, acting on the value of diversity and inclusion – we view all of this as key to future growth. I am satisfied to observe already many indicators and measures that AFL will grow to be an employer of choice.

ETHICAL LEADERSHIP

The success of any organization requires more than just a sound business strategy. I am personally committed to ensuring that ethical leadership continues to be embedded in our culture across our organization. It has roots in the fundamental values we have held for many years-things like putting customers first and always acting with respect and integrity. It also encompasses our strength, including a strong balance sheet, prudent risk management and a continuing focus on cost control. Building on our competitive advantage and proven strengths, we are constantly building the right culture, people and capabilities to deliver superior value to our clients, shareholders, employees and communities.

GOING FORWARD

Looking ahead, we will continue on our profitable growth path. Our growth agenda must be supported by an equally tireless pursuit of operational excellence. Enhanced customer service and upgraded quality should differentiate our competitive edge to help support cost benefits. We will continue to strive to improve our operational superiority through investment in training and development and honoring our core values. We have everything in place and we will continue to execute to turn your company into a strong and growing company. We remain focused on all of our targets and their achievement over time. We remain on track to meet our sales and cost reduction targets. However the timing and pace of achieving our income related targets are dependent on the pace of economic development and the trajectory of cost of raw materials and financing cost. We would however, appeal to all concern for a peaceful economic journey that would help all of us to attain faster growth, prosperity and satisfaction.

CLOSING REMARKS

I would like to thank my revered colleagues who supported me and worked hard with passion, tremendous commitment, intensive and constructive teamwork in these challenging times to reach our corporate goals in 2016. This dedication is also honored by our customers and business partners, whom I would like to thank for their cooperation and confidence. RISK AND CONCERN

Aman Feed Limited (AFL) is operating in a locally competitive industry involving both external and internal factors having direct as well as indirect effects on the investments. The management of Aman Feed Limited carefully considers all risk factors such as interest rate risks, exchange rate risks, industry and market risks and operation risks etc. To consider these risks the management has taken some initiatives to erase risks. The company is emphasis to minimize the dependence on bank borrowing. Since AFL borrows for long term from Banks with interest rate and has a strong equity base, the management perceives that fluctuation of interest rate on borrowing would have little impact upon the performance of the company.

Aman Feed Limited has to import some of its raw materials from foreign market, but those raw materials are also available in local market. Depending on the price of raw materials in foreign and local market, foreign currency rate, lead time, foreign currency rate movement etc we make our decision for procurement of raw materials. However, as a highly profitable company the foreign exchange fluctuation risk is not vital in case of LC retirement.

Industry risks refer to the impact that the country's industrial policy can have on the performance of a specific industry. Due to rapid development in the poultry &fish farming and maintaining of strict product quality, efficient management of ingredient of production, utilization of developed technology, timely decision for expansion of production capacity, development of strong marketing network with skilled human resources etc, the future of AFL is expected to be bright. Since the feed market is gradually expanding with the demand for protein for the increasing population, there are chances of further occupying the market share.

Operational risk arises from improper execution of company's business. This risk can also be summarized as human risk, which occurs due to human error.

The Company manages this risk through a control based environment. This is supported by an independent program of periodic reviews undertaken by internal audit, and by monitoring external operational risk events, which ensure that the Company stays in line which industry best practice and takes account or lessons learned from publicized operational failures within the Feed manufacturing industry.
